## Fiery Gizzard Trail Re-Routing Receives Regional Attention

### FSC Plans Gaze & Graze on Oct. 11

The nation's largest, single-day volunteer effort for public lands was held on Sept. 26, on National Public Lands Day (NPLD), and the efforts of many people centered on the Fiery Gizzard Trail re-route in South Cumberland State Park. After the threat to the Fiery Gizzard Trail made the evening news in Nashville and the front page of the Chattanooga Times, hundreds of people have responded. Ranger Jason Reynolds said, "We have been inundated by calls and emails from groups who want to help."

The Nashville location of outdoor recreation retailer REI selected the Fiery Gizzard Trail as its NPLD volunteer project, partnering with the Friends of South Cumberland (FSC) to recruit workers. REI volunteers joined Boy Scouts, members of Tennessee Trails Association, students and faculty from Highland Academy in Portland, Tenn., and others who braved the trail work in the steep, rocky terrain.

Ken Tucker of Tennessee's "Wild Side TV" altered his schedule to come to Grundy County and film a piece on the trail. The story will begin airing across the state on PBS in early October. Ranger Reynolds noted that in coming weeks he has scheduled volunteer workers from Boy Scout troops, a group from Georgia Tech, Sewanee students, an organization from Chattanooga that specializes in rock work on trails, and many from hiking Meet Ups in the

tri-state region. The volunteer efforts continue every Saturday and Sunday through December, with workers meeting at the Grundy Forest parking lot at 9 a.m.

In mid-August the park learned that a private landowner had withdrawn permission to cross his land, which will block one section of the popular 12.5-mile trail, effective Dec. 1. The linear trail, heralded by Backpacker Magazine as the sixth in the nation on the list of Best Fall Foliage Hikes, is loved by many.

"We have never seen a response like this," said Reynolds, who is coordinating the new trail. "The only way to save this trail is to re-route a section down into the cove, skirting the privately owned property."

Friends of South Cumberland and the Savage Gulf Preservation League are hosting a land preservation celebration, Gaze and Graze, on Sunday, Oct. 11. At 2 p.m. meet at Stone Door for a hike to the overlook; 3–4:30 p.m., gather at Beersheba Springs Hotel for music, refreshments and fun. Bazzania will provide music.

"This is an opportunity to celebrate with the fine folks who are committed to preserving the great spaces of South Cumberland State Park," said organizers.

Reservations are not required. For more information, contact Margaret Matens by email to <FSCpublicity@gmail.com> or call (931) 924-2623.

## Fund-Raising Complete for Elliott Park Playground Project

### University and Civic Association Sign Memo of Understanding

Thanks to the generosity of our community, the Sewanee Civic Association has raised the full cost of the Elliott Park playground equipment, as of Oct. 1. More than \$56,500 has been donated or pledged for the project.

University Provost John Swallow and Sewanee Civic Association (SCA) president Kiki Beavers met on Sept. 30 and signed the memorandum of understanding (MOU) for the Elliott Park Playground Project.

Recognizing the need for renovation of the Elliott Park playground, the SCA identified the project as a community priority and the University of the South offered to help with site preparation and construction.

"This is an important partnership between the SCA and the University of the South to benefit the community," said Beavers. "The five-year MOU clearly identifies the separate responsibilities of the Civic Association and the University."

She added, "This is a reminder Sewanee is a place where families live and are valued."

Major funders include the South Cumberland Community Fund, the Sewanee Community Council Funding Project, the Kaj Krogstad Memorial Fund, the Joel and Trudy Cunningham Charitable Fund, and donations through a designated fund with the Sewanee Community Chest. Community families had a lemonade stand and bake sale fund-raiser for the project in late August that raised \$1,670.

Located on University Avenue in the center of campus near All Saints' Chapel and the University Book and Supply Store, the new Elliott Park playground will include a balance beam, bridge, climbing structures, swing sets, spinning elements and a musical component. The park will be accessible for all children and will incorporate local and natural materials.

In addition to securing funding for the purchase of the equipment and installation, SCA will be the point

of contact for complaints; secure and maintain safety certificates with GameTime, the playground equipment manufacturer; and under GameTime's supervision, oversee the community-build portion of the construction and installation.

Under the agreement, the University is responsible for site preparation and drainage; accessibility and improving parking facilities; and the cost of moving and or replacing the playground equipment if the site is needed for other purposes. Site preparation began in September. Organizers hope that the playground will be delivered later this month. There will be time during this process for community participation in the playground's installation.

### OUTRAGE OVER IRAN DEAL

#### To the Editor:

President Obama has crossed the line with the Iranian agreement. For 18 years Iran hid its nuclear program from the world. They are the world's number one sponsor of terrorism. During the talks, their supreme leaders repeatedly pledged death to America and Israel. It is outrageous that Obama would continue to deal with them after these threats. There are side deals which Obama refuses to reveal to Congress. One of the deals, however was leaked and it stated that Iran will be allowed to conduct its own inspection at certain sites. This is ludicrous! No wonder Obama won't tell Congress about the side deals.

America gets nothing out of this deal and Iran gets \$150 billion to use to support terrorism. This deal does nothing to stop Iran from developing a nuclear weapon. Iran recently announced the discovery of a huge uranium reserve. Iran has already violated the agreement by allowing Russia to move troops, tanks and planes into Syria by way of Iran. Iran has also begun purchasing Russia's best air-to-surface missiles.

We are at war with terrorists. This deal gives aid and comfort to our enemies. Therefore, Obama and every

member of Congress who voted to support this deal are guilty of treason. Obama is nothing more than a dictator. He has abandoned Israel and sided with Iran. God warns those who go against his people. If this lawless rule continues our country will pay a devastating price.

God bless America.

### IONA'S FIRST WEEKS

#### To the Editor:

A wondrous mix of spiritual depth, beauty, impassioned love, and sensitive memories are characteristics of the creative presentations this season at IONA: Art Sanctuary. The initial events brought great variety.

Wit, poignancy of place, travel, and humor were offered by Chris McDonough's verse. Laura Willis read her gentle, incredibly lovely verse about family history and of what photographs entail. Lynn Cimino-Hurt read her lyrical poetry about human emotion entwined with land.

Leslie Richardson spoke of challenges in recent Fulford Hall provocation to introduce two superb poets—Richard Tillinghast and David Landon. Tillinghast's ever-powerful poetry about time and place and Landon's dramatic evocative delivery of his amazing poems were followed by the charming guitar playing of Billy Terrell.

Friday, Camila Hwang-Carlos read her poems of wisdom, desire and spiritual insight, with Virginia Craighill

A variety of pumpkins grown in Tennessee.

## Use "Pick Tennessee" App to Find Local Pumpkins

Tennesseans can expect plentiful pumpkins, gourds and winter squash this year. Round, bright orange Jack-o'-Lantern pumpkins are still popular for Halloween carving, but increasing numbers of colorful heirloom pumpkins, which are also edible, may be stealing the show.

Traditional cooking pumpkin varieties like the blue Australian or Jarrahdale pumpkin, the neon orange Cinderella pumpkin and the pinkish Long Island cheese pumpkin tend to be relatively flat. Their bold, unusual colors also make them trendy favorites for stacking on doorsteps in autumn tableaux, making them a smart choice no matter how they're displayed.

Tennessee pumpkin growers weathered a challenging growing season with cool, wet conditions, but ended with ideal harvest conditions for the 2015 crop. About 2,000 acres across the state are dedicated to pumpkins, colorful gourds and other hard squash. Loads of colorful orbs have been making their way to area farmers markets, garden centers and other retail outlets since the first week of September.

The free Pick Tennessee Mobile App from the Tennessee Department of Agriculture allows users to find local farms and farmers markets, then map the way from the user's location. Find pumpkin patches and all sorts of autumn decor, including gourds, squash, Indian corn, straw bales and chrysanthemums for doorsteps, pies and table arrangements with <www.picktnproducts.org> and the Pick TN mobile app.

## THE INSATIABLE CRITIC

by Elizabeth Ellis

### Minions

7:30 p.m. • Friday–Saturday, Oct. 2–3  
Special matinee at 2 p.m., Sunday, October 4  
2015 • Rated PG • 91 minutes

So who were the Minions before Gru came along? The adorable and nefarious overall-clad creatures who bear a striking resemblance to Twinkies quickly became a fan favorite during their appearances as Gru's henchmen during the "Despicable Me" films, earning them their own feature-length film. We are treated to a brief history about the evolution of the little guys from the dawn of time onward, landing in 1968 with Minions Kevin, Bob and Stuart hitchhiking their way to Orlando, Florida to attend Villain-Con. The purpose is to find another villain to serve. They get more than they bargained for when they are hired by Scarlet Overkill, the biggest and baddest villain of them all (deliciously voiced by Sandra Bullock). Through a series of improbable events, they soon find themselves fighting for their very existence. Directed by Brian Lynch, who is also known for "Hop" and "Puss in Boots," the film got mixed reviews, with the general consensus being go for the high-quality animation and the gag jokes, but don't expect too much coherence plot-wise. Rated PG for some action and rude humor, this film is appropriate for families and children of all ages.

### Ant-Man

7:30 p.m. • Thursday–Sunday, Oct. 8–11  
2015 • Rated PG-13 • 117 minutes

The charming Paul Rudd stars as Ant-Man, a superhero who can shrink in size while increasing in strength, in this quirky Marvel-based movie that defies the usual comic book customs. Ant-Man, aka Scott Lang, is a petty burglar who is trying to go straight when he is presented with the opportunity to become Ant-Man. Rather than rely on all special effects and gadgetry, "Ant-Man" is witty and whimsical: think "Honey I Shrunk the Children" meets "Iron Man" and you get the idea. Rudd's breezy one-liners are aided by the supporting cast that includes Michael Douglas, Evangeline Lilly, Corey Stoll and John Slattery. This is a Marvel-branded movie so there are still plenty of things that blow up and some crazy action sequences. There's a lightness and sense of humor in "Ant-Man" that is wonderfully refreshing. Rated PG-13 for sci-fi action violence. —LW

## Dion Talks about Art and Natural History

Internationally recognized artist Mark Dion will talk at 7 p.m., Friday, Oct. 9, in Convocation Hall. His talk, "Trouble Shooting and Trouble Making —Worldwide," will consider the implications of Dion's art practice over several years in relation to the politics of natural history collections, preservation and taxidermy, extinction, and museum interventions. While on campus, Dion will work with students in a humanities course, *Histories of Science, Vision, and Art* taught by Jeffrey Thompson and Kelly Whitmer.

Since the early 1990s, Dion has developed a dynamic and influential art practice concerning the history of visual representation, knowledge, and the natural world. His work explores historical practices of organizing and studying the world and their influences on contemporary perceptions of nature. Using irony, humor and performance, Dion critiques the traditional hierarchies and structures

of power that frame our knowledge about the natural world. Dion mimics scientific and museum-based methods of collecting, arranging and exhibiting objects.

Dion is the subject of a monograph published by Phaidon Books (1997), and the focus of numerous articles in the *New York Times*, *Artforum*, *Artnews*, the *New York Observer* and *Art 21 Magazine*. Dion's best-known projects include *Thames Digs* sponsored by the Tate Museum in London in 1999, and *Neukom Vivarium* (Olympic Sculpture Park, Seattle) featured in the PBS series *Art 21*.

Generous support for Dion's campus visit and public talk has been provided by the University Lectures Committee, film studies, the art and art history department, the dean of the College, the history department, and the Friends of the University Art Gallery.

## Lytle at Featured at Southern Festival of Books

Novelist Leslie Lytle, author of "Chicken Stock," will give a reading and talk as part of the 27th annual Southern Festival of Books in Nashville Oct. 9–11. Lytle's panel, "Family Farm: The Pursuit of Sustainability in Two Novels," will also include a reading by Kentucky novelist Robert Gipe. Michael Ray Taylor will host the session and moderate a question-and-answer period after the readings. In addition to "Chicken Stock," Lytle is the author of the acclaimed nonfiction work, "Execution's Doorstep: True Stories of the Innocent and Near Damned." She is also a staff writer for the *Sewanee Mountain Messenger*.

The session will be at 10 a.m., Saturday, Oct. 10, in Nashville Public Library Banner Room. A signing will follow at the Colonnade in Legislative Plaza. For more information go to <www.humanitiestennessee.org>.

## Extreme Sports Meet Science

Andreas Fath, a professor at Hochschule Furtwangen University in Villingen-Schwenningen, Germany, will share his journey as a swimmer/scientist at 4:30 p.m., Thursday, Oct. 8, in Gailor Auditorium.

During the summer of 2014, Fath broke the record for speed swimming the 1,231 km-long Rhine River from its source in the Alps to the North Sea. During his 28-day swim, he collected daily water samples that gave detailed information about the quality of water in terms of pharmaceuticals, microplastics, pesticides and bacteria.

Fath will also discuss his plans to swim the entirety of the Tennessee River in 2016. The talk is sponsored by the department of forestry and geology and the Office of Environmental Stewardship and Sustainability.

## Constitutional Structures and Civic Virtues

Robert P. George, McCormick professor of jurisprudence at Princeton University, will talk at 4:30 p.m., Thursday, Oct. 8, in Convocation Hall, on "Constitutional Structures and Civic Virtues."

George is the founding director of the James Madison Program in American Ideals and Institutions, and is currently chairman of the U.S. Commission on International Religious Freedom. His work on civil rights, ethics, science and technology, culture, politics and religion has been lauded with numerous awards and honors, including the U.S. Presidential Citizens Medal.

George's visit is sponsored by Sewanee's Pre-Law Program, the Babson Center for Global Commerce, and the department of politics.

An economics professor at Stonehill College, a liberal arts college in Easton, Mass., Mulholland is the Babson Center for Global Commerce's Bryan Viewpoints Series speaker for the Advent semester.

Mulholland's interests include economic growth, environmental economics, law and economics, and public choice. # Help SES With BoxTops

There is an easy way to support Sewanee Elementary School. Take a few minutes and clip the "Box Tops for Education" from many of the groceries you already buy at the store. Last year was a great year, and SES surpassed its goal. Please keep clipping! You can drop them off at SES, in the box in the entry area of the Sewanee Post Office, or SPO them to Emily Puckette.

SES also collects Labels for Education. Drop them off at SES or place them in the collection box at the Sewanee post office. For a list of participating items online: <http://www.bboxtops4education.com/products/participating-products>. For more information visit <[www.btfe.com](http://www.btfe.com)>.

# FCHS Needs Mentor Volunteers

Franklin County High School is seeking just a few more mentors to participate in the tnAchieves program, to help FCHS students transition to college. The tnAchieves program works with the Tennessee Promise project to increase the number of students who attend college in our state.

Franklin County is only 14 mentors away from its goal. Mentors spend about one hour a month assisting students as they transition to college. It is a small time commitment but the impact on a student can be life changing.

Mentors remind students of important deadlines and encourage them to reach their full potential. For more information go to <[www.tnachieves.org](http://www.tnachieves.org)> or call Diana Spaulding at 967-0626.

# SAS Volleyball Claims Senior Night Win

St. Andrew's-Sewanee School's varsity volleyball team defeated Lincoln County High School, 25-20, 25-23, and 25-15 on Senior Night, Sept. 28.

Carolyn Bruce had her best match of the year as she dominated net play, recording six blocks and four kills. Lexie Laurendine added five kills, three aces and two blocks; Lydia Angus had four kills and five digs; Madison Gilliam posted two aces; Sierra Mushett had 12 assists. Margaret Wilson led the team in scoring and Skylar Moss had five digs.

Seniors Sophie Swallow and Wilson were honored before the start of the varsity match. Swallow had this to say about her SAS volleyball experience: "Growing up in a family of non-athletes, playing for and being accepted by such a strong volleyball team did a lot for my self esteem, and I couldn't be more grateful."

The team also defeated Marion County in a "pink out" match on Sept. 24 in four sets, 14-25, 25-18, 25-22 and 25-20. Players from both teams played in honor of friends and family members that have had breast cancer.

Angus sparked the SAS offense with four aces and nine kills to go along with six digs; Laurendine had 15 kills, two aces and five digs; Mushett had 19 assists and six digs; Moss had six digs; Gilliam had three kills and five digs; and Bruce had three digs.

SAS senior volleyball players Margaret Wilson (third from left) and Sophie Swallow (second from right) are recognized with their families before the Sept. 28 match.

## Sewanee Women's Golf No.11

After winning its first-ever tournament as a program on Sept. 28, the Sewanee women's golf team moved up three spots in the latest Golfstat rankings to 11th nationally.

The Tigers were previously ranked 14th before dominating the Huntingdon Intercollegiate tournament by 24 strokes. This current ranking is the best in program history. Redlands is currently ranked first, while Wittenberg is second.

Other notable teams that are ranked include Williams (third), Rhodes (fifth) DePauw (sixth), Washington University (seventh), and Centre (15th). Sewanee is ranked third in the region behind both Wittenberg and DePauw. The Tigers are ranked seventh in scoring average with a team tournament-round average of 312.17.

Individually, Sewanee placed three student-athletes in the top-100. Senior Emily Javadi leads the way with a No. 3 national ranking. The Chattanooga native is ranked first in the region.

# NATURENOTES

## Giant Silkworm Caterpillar

Sewanee Children's Center (SCC) student, **Jack Roberts** (right) found a giant silkworm caterpillar near the sandbox on Monday.

SCC director Harriet Runkle notes that this particular silk moth caterpillar is called the cecropia caterpillar, identifiable for its light green color with a double row of reddish orange knobs (turbecles) on the thorax behind the head. There is also a series of smaller yellow and blue knobs (turbecles) on the abdomen. These knobs, combined with the caterpillar's four-inch length and wide girth, make them look ferocious, but they are presumed to be harmless to people.

The children at SCC have created a habitat for "Bob" in hopes that he will spin his cocoon and stay with them until the spring. The silk moth caterpillars emerge in June; cecropia feeds on the leaves of many different hardwood trees, including cherry, linden, maple, boxelder, elm, oak, birch, willow, hawthorn and poplar. The insect constructs a cocoon, often inside a group of leaves, that typically is attached to a branch or to the trunk of the host plant.

Both belong to the family of giant silk moths (Saturniidae) and are active as caterpillars from summer into the fall, before they pupate and spend the winter as cocoons. They emerge as adult moths the following spring. Adults are short lived, surviving just one to two weeks, and do not feed. They basically have enough time to mate and lay eggs. These moths have one generation per year.

## Pets of the Week

### Meet Rascal & Dipper

The Franklin County Humane Society's Animal Harbor offers these two delightful pets for adoption.

Rascal is a very sweet, smart Shepherd mix who would love to join an active family. He's house-trained, so he'd be happy to have an indoor home with a yard to play in when the weather is nice. Rascal is heart-worm negative, up-to-date on shots, micro-chipped and neutered.

Dipper is a handsome, fluffy ginger and white 7-year-old kitty who is extremely affectionate. He will be a great couch buddy to cuddle up with as you enjoy a good book or watch a movie. He is negative for FeLV and FIV, house-trained, up-to-date on shots, micro-chipped and neutered.

Every Friday is Black Friday at Animal Harbor. On Fridays, adoption fees are reduced 50 percent for black or mostly black pets over 4 months old who have been at Animal Harbor for more than a month.

Pets adopted from Animal Harbor qualify for a free post-adoption wellness exam by local veterinarians. Animal Harbor is now open at its new shelter at 56 Nor-Nan Rd., off AEDC Road in Winchester.

Call 962-4472 for information, and check out other pets at <www.animalharbor.com>.

# BARDTOVERSE

## To Autumn

Season of mists and mellow fruitfulness,  
Close bosom-friend of the maturing sun;  
Conspiring with him how to load and bless  
With fruit the vines that round the thatch-eves run;  
To bend with apples the moss'd cottage-trees,  
And fill all fruit with ripeness to the core;  
To swell the gourd, and plump the hazel shells  
With a sweet kernel; to set budding more,  
And still more, later flowers for the bees,  
Until they think warm days will never cease,  
For summer has o'er-brimm'd their clammy cells.

Who hath not seen thee oft amid thy store?  
Sometimes whoever seeks abroad may find  
Thee sitting careless on a granary floor,  
Thy hair soft-lifted by the winnowing wind;  
Or on a half-reap'd furrow sound asleep,  
Drowsed with the fume of poppies, while thy hook  
Spares the next swath and all its twined flowers:  
And sometimes like a gleaner thou dost keep  
Steady thy laden head across a brook;  
Or by a cider-press, with patient look,  
Thou watchest the last oozings, hours by hours.

Where are the songs of Spring? Ay, where are they?  
Think not of them, thou hast thy music too,  
While barred clouds bloom the soft-dying day,  
And touch the stubble-plains with rosy hue;  
Then in a wailful choir the small gnats mourn  
Among the river shallows, borne aloft  
Or sinking as the light wind lives or dies;  
And full-grown lambs loud bleat from hilly bourn;  
Hedge-crickets sing; and now with treble soft  
The redbreast whistles from a garden-croft,  
And gathering swallows twitter in the skies.

—John Keats (1795–1821)
